FEATURES

- Tracks from 10 CDs stored in the disc magazine can be selected and played.
- Horizontal, vertical, slanted or suspended installation can be made.
- Through the window at the top of the unit, you can see a disc spinning as it plays.
- Since it is smaller in size, you will find it easier to install the unit.

In addition to ordinary CDs, CD-Rs or CD-RWs can be read by this unit. However, NEVER use a CD-R or CD-RW that contains no data or data in the wrong format, such as MP3 or other computer files.

When you insert a CD-R/CD-RW, it may take longer to start playing.

NOTE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION

Modifications or adjustments to this product, which are not expressly approved by the manufacturer, may void the user's right or authority to operate this product.

PRECAUTIONS

- Do NOT install the unit in a location where it may be subjected to:
 - Direct sunlight or other sources of excessive heat
 - Fluid, rain or moisture
 - Excessive dirt or dust
 - Excessive vibration
- This unit is designed to be operated on a 12-volt DC negative-ground electrical system only.
- Choose the mounting location carefully so that the unit will not interfere with normal driving functions.
- Before making connections, disconnect the \ominus terminal of the car battery to avoid short circuiting.

Notes on CDs

- A defective or soiled disc stored in the disc magazine can cause the sound to drop out during play.
- Always handle a disc by holding its inner and outer edges.

- Do NOT touch the surface of the unlabeled side of the disc.
- Do NOT attach paper or tape etc. to a disc.

- Do NOT expose the discs to direct sunlight or excessive heat.

- Clean the discs before inserting them into the disc magazine. Always clean a disc from the center outward with a cleaning cloth.

- There may be burrs left on the inner and outer edges of a brand-new disc. The burr may cause the malfunction of the unit or sound drop-out. To prevent these problems, if the burr is left on the disc, be sure to remove them with a ball-point pen, etc. as illustrated.

- NEVER use solvents such as benzine or alcohol to clean a disc.
- You cannot play an 8-cm (3-inch) CD — even with the specially designed adaptor.
- Do NOT use irregular shape CDs (example: heart-shaped, octagonal ones). It may result in malfunction.

Notes on the disc magazine

- Do NOT leave the disc magazine in a place subject to excessive temperature or humidity.
- Do NOT insert more than one disc per slot.
- Do NOT drop the disc magazine.

Precautions

Select the mounting location very carefully, referring to the following points.

- Make sure that there is no fuel tank, wiring or piping on the other side of the mounting surface.
- Make sure that the installation of the unit will not hinder the movement of the deck lid or interfere with the spare tire, etc.
- Use only the supplied mounting kit for safe and proper installation.

Removing the transport screws

Find the three transport screws at the bottom of the unit, which lock the unit's mechanism during transport. Remove these screws before installation.

Retain these screws and replace them in the original positions if the unit is transported for service or maintenance.

Mounting angle setting levers

Be sure to change the position of both mounting angle setting levers according to the angle at which the unit is to be installed.

Mounting angle setting levers

Insert a pointed object such as a screw driver or ball-point pen, etc. into the low spot of the lever and slide the lever to the position from among HORIZONTAL, 45°, and VERTICAL positions.

Notes

- Be sure to eject the disc magazine when you set the levers.
- Be sure to set both levers to the same position.
- Be sure to set the levers exactly at the position (notch). If the lever is deviate from the position, the sound may drop out.
- Care must be taken when you mount the unit at the angle of lower than level. The disc magazine may drop if you eject the magazine.
- Do NOT turn over the unit or slide the lever when the unit is activated. Doing so may damage the mechanism or the discs in the unit.
- The mounting angle setting levers on each side of the unit are factory-set to the HORIZONTAL position.
- When you complete the setting, attach the supplied adhesive labels (E) over the slots.
